

Sunshine Act Tracking with ExpenseWire®

Under federal law, the Sunshine Act mandates that travel, gifts, meals, honoraria, and other costs above \$10 paid by certain manufacturers to physicians and/or teaching hospitals must be reported.

Now you can track those expenses with ease by collecting, reviewing, and analyzing this type of spending with ExpenseWire. ExpenseWire allows you to:

- Streamline expense submissions and approvals.
- Eliminate manual, paper-intensive processes.
- Analyze and execute annual reports.

Submit Expenses Anywhere

Capture receipts as you get them using ExpenseWire's mobile submission process. The easy, accessible submittal process promotes tracking expenses right from the road.

Obtain Detailed Information

ExpenseWire requires employees to submit comprehensive, itemized expense reports. This way, you receive the granular information you need, including the date, value, category, and receipt for each submission.

Analyze Expense Spending

Monitor expenses and adhere to guidelines with a customized Sunshine Act report. Reports can be built to gauge your spending throughout the year and ultimately provide data to the Centers for Medicare & Medicaid Services.

National Provider Identifier (NPI) Database

ExpenseWire allows you to associate NPI records to your expense reporting. The ExpenseWire NPI database is updated weekly to ensure accurate and up-to-date reporting of all NPI activity.

\$1,150,000

is the maximum annual penalty
a company can be fined for
being out of compliance.
