ExpenseWire®
Fact Sheet

What is ExpenseWire®?

This easy-to-use online expense report management solution automates the entire expense reporting lifecycle – from creating and submitting, to approving, managing, reimbursement, and reporting. With ExpenseWire, you can streamline your expense management and uncover real savings at each step in the expense cycle.

How does ExpenseWire reduce costs and drive efficiency?

- Automates the approval workflow and reduces manual processing costs.

- Dramatically increases productivity by eliminating the waste, errors, pain, and paperwork attributed to traditional expense reporting processes.

- Automates every stage of the expense reporting lifecycle, including the power to drive savings through the exposure of expense data across the organization.

- Provides business intelligence through robust analytics.

- Automatically inspects submissions to prevent duplication.

- Retains receipts for ready access for audits and reviews.

Automate the expense lifecycle and save.

Why ExpenseWire?

- Simple, yet all-encompassing submittal process creates expense reports within minutes.

- Flexibility and configurability reinforce and help shape your spending policies.

- Vast import capabilities from business or personal credit cards reduce data entry.

- Custom exports reduce data entry into accounting, CRM, ERP, payroll, and HR systems.

- Rapid deployment and simple pricing.

- 100% software-as-a-service (SaaS) application.
